- How the American Red Cross was coopted by powerful forces on Wall Street.
- Wall Streeters who intervened to free Leon Trotsky, even though Trotsky's stated aim was to engineer "the real revolution"—the Soviet coup which toppled Kerensky.
- The deals made by major corporations to capture the huge Russian market a decade and a half before the U.S. recognized the Soviet regime.
- The "closet socialism" of leading businessmen who paraded publicly as champions of free enterprise.
